BOOKINGSOLVED · 01

How It Works

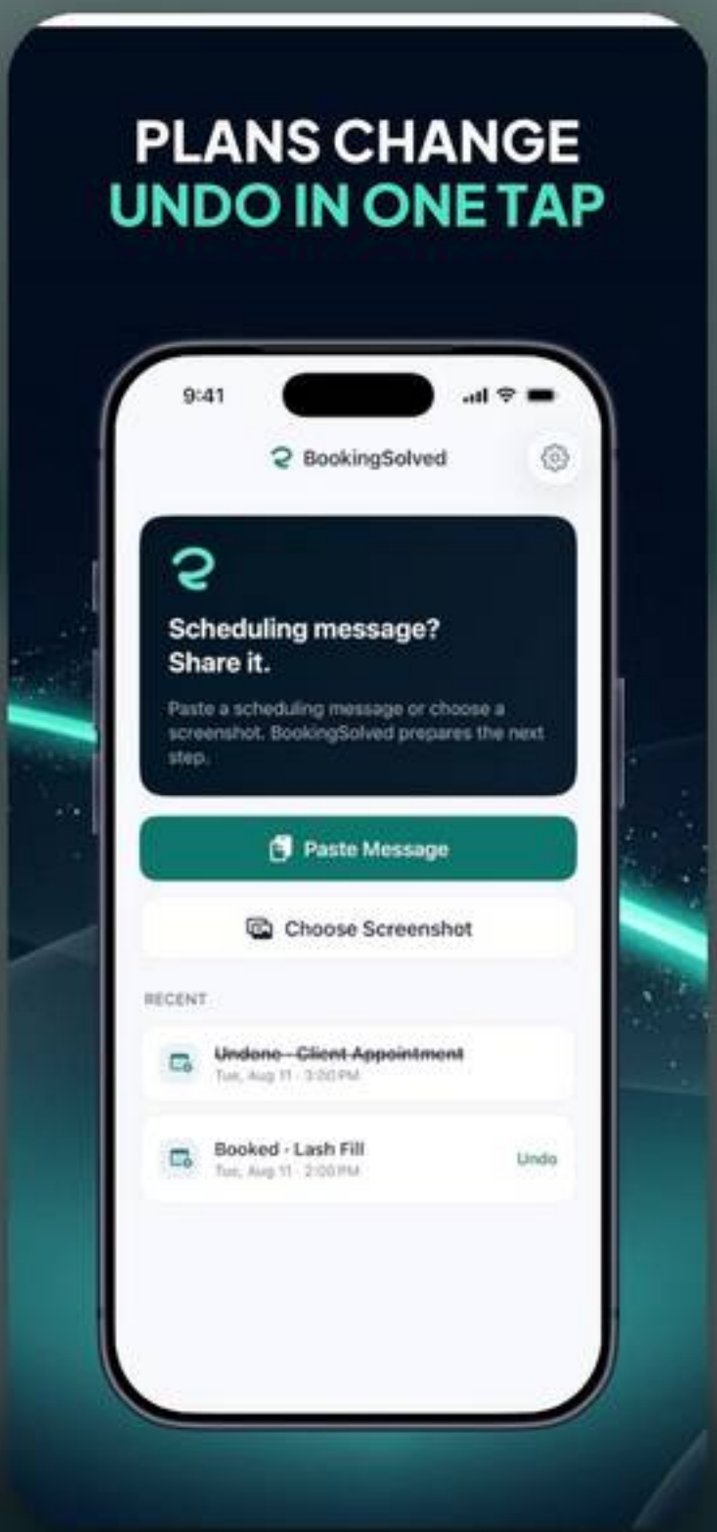

Add a request: paste text, choose a screenshot, or use the Share Sheet. Only what you choose is read. · Review the details: service, date, time, and duration are found on your iPhone.

BOOKINGSOLVED · 02

Book Appointments From Requests

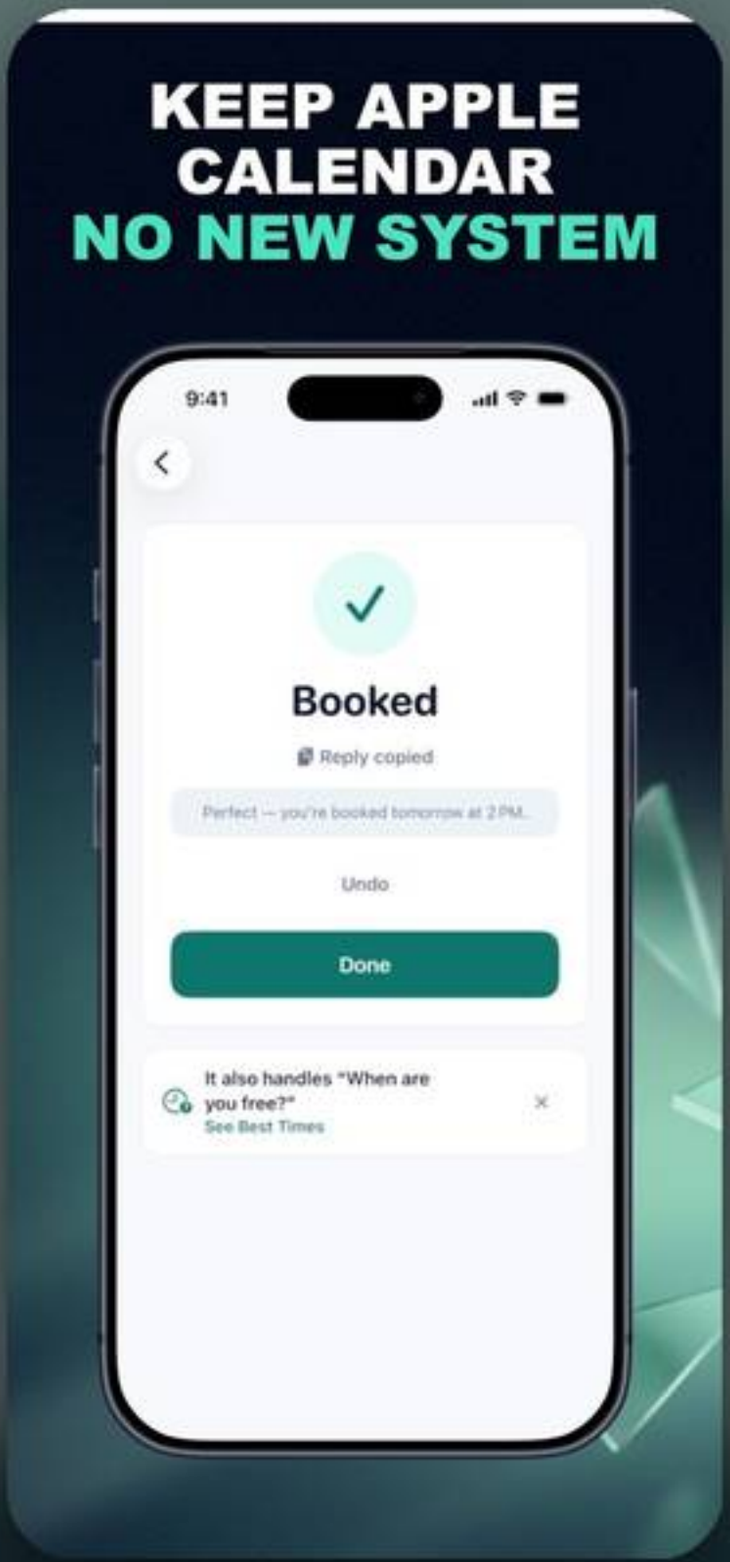

"Tuesday at 2 works!" becomes a proposed appointment checked against your Calendar. BookingSolved re-checks right before saving and won't create a duplicate if you tap twice.

BOOKINGSOLVED · 03

Share Your Open Times

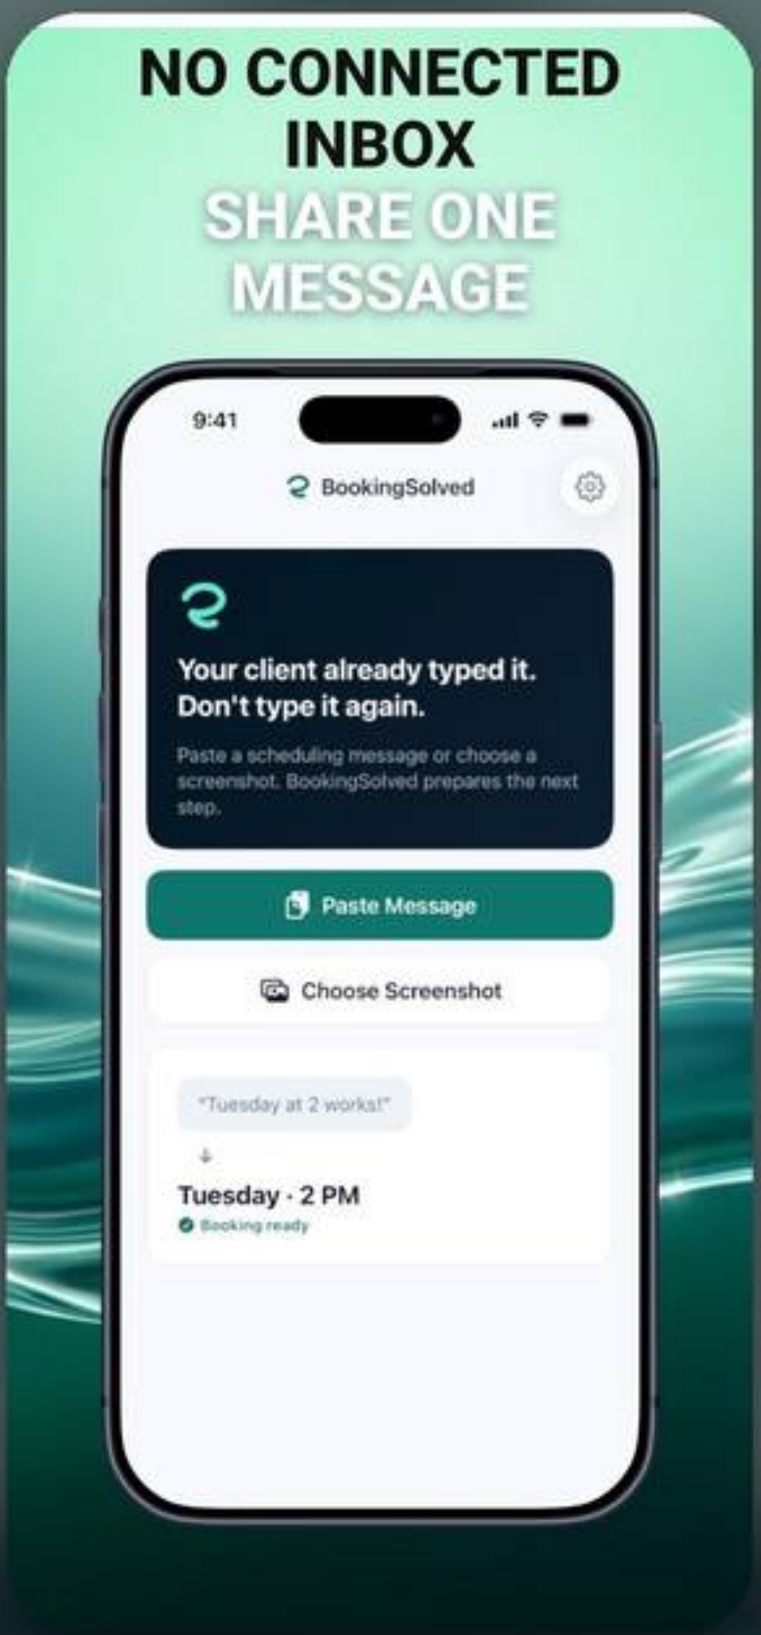

When a client asks for availability, get a few open times within your business hours, around existing appointments, using each service's duration and buffer time. If the requested time is taken, you get nearby alternatives.

BOOKINGSOLVED · 04

Reschedule And Cancel Safely

"Can we move it an hour later?" finds the existing appointment, shows a before-and-after preview, and moves it only when you approve. Cancellations show the exact event first.
