Ounces Or Liters, Your Choice

Pick oz or mL and liters on the first screen. Bottle sizes, quick amounts and goal steps use round numbers in your unit (8, 16, 24 oz or 250, 500, 750 mL), and your goal shows the other unit beside it.

DROPKIN · 02

One-Tap Water Logging

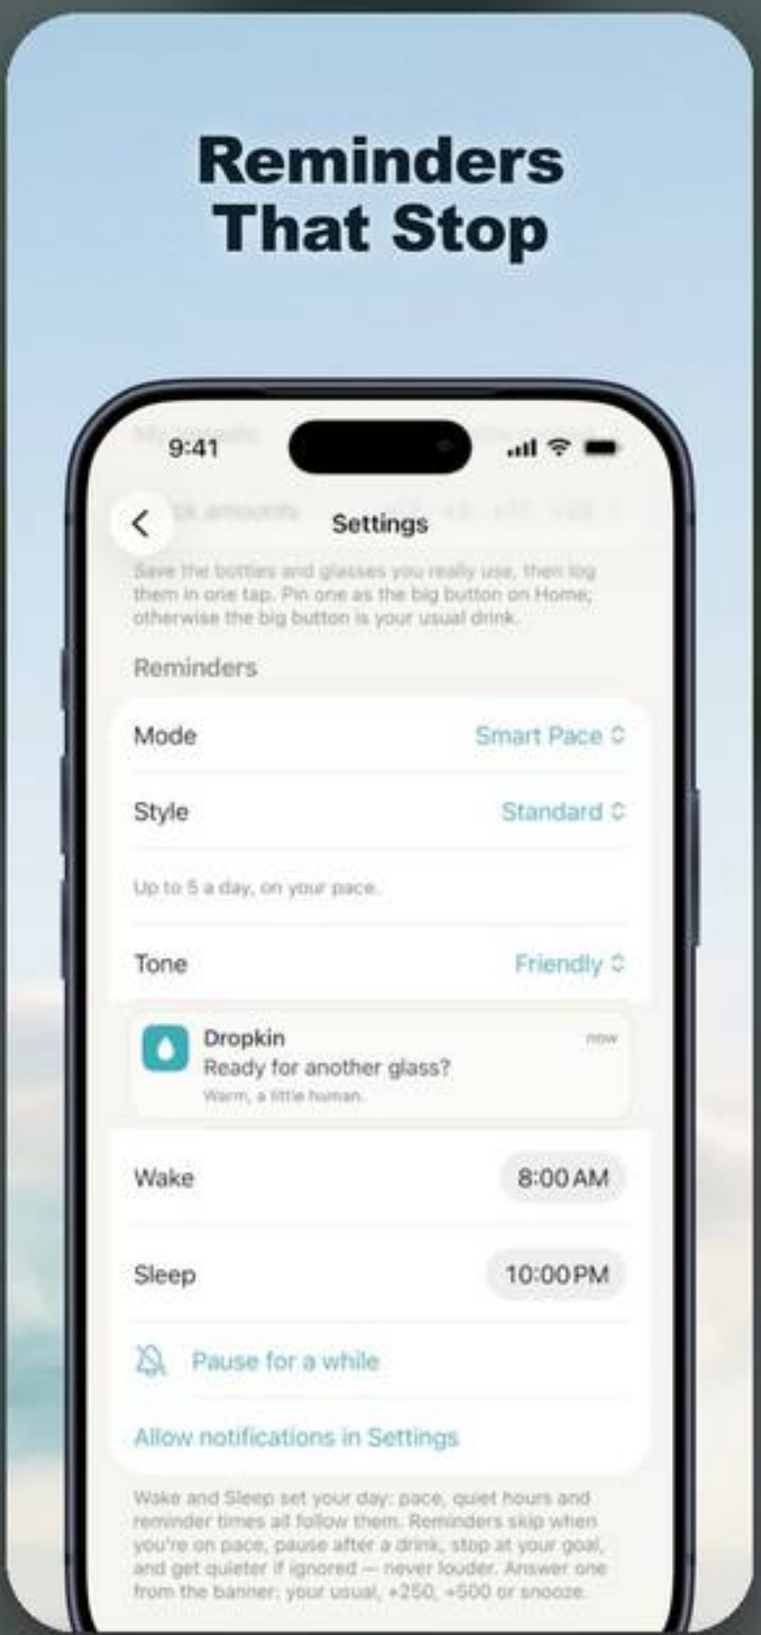

Save your favorite bottle, glass or mug with its real capacity and pin it. One tap logs the whole thing. ½ and ¼ buttons sit right beside it, and a hold opens ¾ or any custom amount.

Water You Can Feel

Today's water fills an animated vessel you can interact with. Tilt your phone and it leans. Touch it and ripples spread. A Flow Bead rolls through it, with nine materials to earn, each moving a little differently.

DROPKIN · 04

One Glance

Today's total, your goal and what's left are the first thing you see. Hydration Pace shows On pace or A little behind against your own wake-to-sleep hours. Never red, never a lecture.
